Introduction

DAILY TRACKER, WEEKLY REFLECTIONS, BEFORE-and-after body inventory. Use this to make the program stick.

How to use this workbook

Use it daily. Track what you did. Note what you felt. Compare beginning to end.

The data matters more than perfection. Even brief notes — one word, one number — adds up to a meaningful record of your 30 days.

Print it out if you can. Keep it where you'll do your practice. Bring it to your next session.

3.

My next step:
