Contents

1. How to use this workbook
2. Pattern Self-Assessment Scorecard
3. Reflection Prompts
4. My Pattern Practice Plan
5. Daily Movement Awareness Targets
6. Incidental Movement Targets
7. 30-Day Pattern Practice Tracker
8. 30-Day Re-Assessment
9. Quarterly Re-Tests
10. Year-End Pattern Inventory
11. Try this for 30 days

Introduction

A YEAR-LONG COMPANION TO THE IC9 DEEP CUT.
Systematically rebuild the fundamental
movement patterns.

CHAPTER 1

How to use this workbook

YEAR-LONG REFERENCE. PATTERN SELF-ASSESSMENT first. 30-day pattern practice tracker. Quarterly re-tests to see progress.

Bring it to every session.

CHAPTER 2

Pattern Self-Assessment Scorecard

TEST EACH PATTERN AND RATE WHERE YOU ARE honestly.

Hinge Test

Stand. Feet hip-width apart. Slowly hinge forward from hips, knees slightly bent. Reach toward floor.

- ☐ Palms to floor (5)
- ☐ Fingertips to floor (4)
- ☐ Mid-shin (3)
- ☐ Knees only (2)
- ☐ Can't bend comfortably (1)

Score: ____ / 5

Squat Test

Stand. Feet shoulder-width apart. Lower into squat as deep as possible, heels on floor.

- ☐ Below parallel easily (5)
- ☐ Parallel with effort (4)

- [] Partway, not parallel (3)
- [] Barely bend knees (2)
- [] Can't squat / heels lift (1)

Score: ____ / 5

Get-Up Test

Sit on floor cross-legged. Stand up.

- [] Easy, no support (5)
- [] One hand for support (4)
- [] Two hands (3)
- [] Roll to knees first (2)
- [] Need significant help (1)

Score: ____ / 5

Rotation Test

Stand. Cross arms over chest. Rotate without moving hips.

- [] See directly behind (5)
- [] Halfway behind (4)
- [] Just over shoulder (3)
- [] Barely past front (2)
- [] No rotation (1)

Score: ____ / 5

Gait Quality

Walk past a window or have someone watch.

- [] Normal heel-to-toe roll, full hip extension, arm swing (5)
- [] Mostly normal but limited hip extension (4)
- [] Mostly flat foot, some shuffling (3)
- [] Significant shuffle (2)
- [] Limp or pain (1)

Score: ___ / 5

Carry Test

Carry a moderately heavy bag 50 feet.

- [] Easy, no compensation (5)
- [] Some lean to opposite side (4)
- [] Significant lean or strain (3)
- [] Cannot do comfortably (2)
- [] Cannot do at all (1)

Score: ___ / 5

TOTAL SCORE: ____ / 30

Interpretation:

- 25-30: Excellent pattern quality. Maintain with daily practice.

- 19-24: Good. Some areas to address. Daily practice will produce noticeable improvement.
 - 12-18: Significant pattern dysfunction. Daily practice is critical. Consider PT or movement specialist.
 - Below 12: Major mobility/strength issues. Professional support strongly recommended.
-

CHAPTER 3

Reflection Prompts

PROMPT 1: WHICH OF THE FUNDAMENTAL PATTERNS has changed most for you over the years? When did you first notice you couldn't do it the way you used to?

Prompt 2: Watch yourself for one full day. Where are you NOT moving when you could be? Stairs vs elevator, parking far vs close, walking vs driving — where do you choose the lower-movement option by default?

Prompt 3: If you could rebuild ONE pattern back to where it was a decade ago, which would it be? Why?

CHAPTER 4

My Pattern Practice Plan

PATTERN WITH LOWEST SCORE (HIGHEST PRIORITY): _____

Pattern most affected by daily life: _____

My 10-15 minute daily routine will include:

Hip mobility + squat: - [] Slow bodyweight squats (**reps**) - [] **Deep lunges** (reps each side) - [] Deep squat hold (___ seconds)

Hinge: - [] Slow hip hinges (**reps**) - [] **Standing forward fold** (seconds)

Spinal/shoulder: - [] Open-book stretch (**reps each side**) - [] **Cat-cow** (reps)

Time of day: ____

Where: ____

CHAPTER 5

Daily Movement Awareness Targets

FOR THE NEXT 30 DAYS, TRACK AWARENESS OF:

- [] How I sit down (hinge or fall?)
 - [] How I stand up (drive through legs or push with hands?)
 - [] How I pick things up (hinge or round?)
 - [] How I reach overhead (mobile or compensating?)
 - [] How I walk (full stride or shuffle?)
-

CHAPTER 6

Incidental Movement Targets

THIS WEEK I'LL ADD:

- [] Take stairs instead of elevators when possible
 - [] Park further away
 - [] Walk during phone calls
 - [] Squat down to talk to kids/pets at their level
 - [] Get on the floor and practice the get-up
 - [] Other: _____
-

CHAPTER 7

30-Day Pattern Practice Tracker

Movement Patterns for Daily Life

CHAPTER 8

30-Day Re-Assessment

RE-TEST ALL SIX PATTERNS. COMPARE TO DAY 1 scores.

PATTERN	DAY 1	DAY 30	CHANGE
Hinge	/ 5	/ 5	
Squat	/ 5	/ 5	
Get-up	/ 5	/ 5	
Rotation	/ 5	/ 5	
Gait	/ 5	/ 5	
Carry	/ 5	/ 5	
TOTAL	/ 30	/ 30	

What changed?

What still needs work?

Commitment for next 30 days:

CHAPTER 9

Quarterly Re-Tests

RE-TEST ALL PATTERNS EVERY 3 MONTHS. TRACK the trend.

Q1 Re-Test — Date: ____

Total Score: ____ / 30

Q2 Re-Test — Date: ____

Total Score: ____ / 30

Q3 Re-Test — Date: ____

Total Score: ____ / 30

Q4 Re-Test — Date: ____

Total Score: ____ / 30

CHAPTER 10

Year-End Pattern Inventory

COMPARED TO ONE YEAR AGO, MY PATTERNS ARE:

- ☐ Significantly better
- ☐ Somewhat better
- ☐ About the same
- ☐ Worse

Pattern that improved most:

Pattern that still needs work:

Daily life feels: ☐ Easier physically / ☐ Same / ☐ Harder

One commitment for next year:

CHAPTER 11

Try this for 30 days

IF YOU DO NOTHING ELSE FROM THIS WORKBOOK, try this:

The get-up. Sit on the floor and stand up without using hands. Once a day. For 30 days.

That's it. One get-up per day.

This single practice strengthens hip mobility, leg strength, core stability, and balance — the foundations of all the patterns. People who do this consistently see improvement across multiple patterns within 30 days.

Bring this workbook to your next session.

— Nate
