Contents

1. How to use this workbook
2. Where You Are Today — Sleep Baseline
3. Sleep Environment Audit
4. Reflection Prompts
5. Your Wind-Down Hour Plan
6. 7-Day Sleep Tracker
7. End-of-Week Reflection
8. Try this for 7 days

Introduction

A PRINTABLE COMPANION TO THE MONTH 3 MODULE. Audit your sleep environment and rebuild the hour before bed.

CHAPTER 1

How to use this workbook

PRINT IT. KEEP IT ON YOUR NIGHTSTAND.

Sleep changes show up in days, not weeks. Most people who do this honestly notice a real difference within 5-7 nights. The workbook helps you track the difference and identify what's working.

Bring it to your next session.

CHAPTER 2

Where You Are Today — Sleep Baseline

AVERAGE BEDTIME IN THE LAST WEEK: _____

Average wake time in the last week: _____

Average hours of sleep: _____

Are these times consistent (within 30 min) every night? [Yes / Mostly / No]

Rate sleep quality signals (0 = never, 10 = every night):

Take more than 30 min to fall asleep	[_____]
Wake up multiple times during the night	[_____]
Wake up not feeling rested	[_____]
Wake up sore / stiff	[_____]
Need caffeine to feel functional in AM	[_____]
3 PM energy crash	[_____]
"Wired but tired" before bed	[_____]
Snore / wake up with dry mouth	[_____]

CHAPTER 3

Sleep Environment Audit

WALK THROUGH YOUR BEDROOM AND CHECK each item.

Temperature: - Room temperature at sleep time: ____°F - Target: 65-68°F - Action needed: ☐ None / ☐ Lower thermostat / ☐ Open window / ☐ Fan

Light: - Room dark enough? ☐ Pitch black / ☐ Mostly dark / ☐ Some ambient light / ☐ Bright - Action needed: ☐ None / ☐ Blackout curtains / ☐ Sleep mask / ☐ Cover light sources

Sound: - Consistent or variable? ☐ Quiet / ☐ Consistent (white noise, fan) / ☐ Variable (traffic, people) - Action needed: ☐ None / ☐ White noise / ☐ Earplugs / ☐ Address source

Pillow check: Lie on your side. Is your head in line with your spine? - ☐ Yes — pillow is right - ☐ Head tips DOWN — pillow too thin (add another or replace) - ☐ Head tips UP — pillow too thick (replace or fold over)

Mattress check: Lie flat on your back. Can you slide your hand under your low back? - ☐ Slides in snugly — mattress is right - ☐ Slides through with

room to wiggle — mattress too firm (add topper) - []
Can't fit hand at all — mattress too soft (replace, or
use firmer surface)

Sleep position: What's your usual? - [] Side with
pillow between knees (best) - [] Side without pillow
between knees - [] Back with pillow under knees - []
Back flat - [] Stomach (worst — consider switching)

CHAPTER 4

Reflection Prompts

PROMPT 1: DESCRIBE WHAT YOUR “HOUR BEFORE bed” actually looks like right now. Be honest — phone, TV, work, doomscrolling, whatever.

Prompt 2: What’s the one thing you do before bed that you know hurts your sleep but you keep doing anyway? Why?

Prompt 3: When was the last time you woke up genuinely rested? Like, “I want to get out of bed because I feel good” rested. What was different about that period?

CHAPTER 5

Your Wind-Down Hour Plan

LOCK THE ROUTINE. SPECIFIC. TRACKABLE.

My target bedtime: ____

My screens-off time (30-60 min before bed):

My pre-bed wind-down activity (reading, stretching, breathing, etc.):

My caffeine cut-off time: ____

One environmental fix I'll make this week:

CHAPTER 6

7-Day Sleep Tracker

FOR THE NEXT WEEK, TRACK THESE BASICS every morning.

Daily check pattern

- Bedtime last night
 - Wake time this morning
 - Total hours of sleep
 - How rested I feel (1 = exhausted, 10 = fully re-stored)
 - Did I do the wind-down hour? (Y/N)
 - Did I keep caffeine cut-off? (Y/N)
-

Day 1 — Date: _____

Bedtime: ____ / **Wake:** ____ / **Total:** ____ hrs / **Rested (1-10):** [__]

Wind-down done? [] / **Caffeine cut-off kept?** []

Day 2 — Date: _____

Bedtime: ____ / **Wake:** ____ / **Total:** ____ hrs / **Rested (1-10):** [__]

Wind-down done? [☐] / **Caffeine cut-off kept?** [☐]

Day 3 — Date: _____

Bedtime: ____ / **Wake:** ____ / **Total:** ____ hrs / **Rested (1-10):** [__]

Wind-down done? [☐] / **Caffeine cut-off kept?** [☐]

Day 4 — Date: _____

Bedtime: ____ / **Wake:** ____ / **Total:** ____ hrs / **Rested (1-10):** [__]

Wind-down done? [☐] / **Caffeine cut-off kept?** [☐]

Day 5 — Date: _____

Bedtime: ____ / **Wake:** ____ / **Total:** ____ hrs / **Rested (1-10):** [__]

Wind-down done? [☐] / **Caffeine cut-off kept?** [☐]

Day 6 — Date: _____

Bedtime: ____ / **Wake:** ____ / **Total:** ____ hrs / **Rested (1-10):** [__]

Wind-down done? [☐] / **Caffeine cut-off kept?** [☐]

Day 7 — Date: _____

Bedtime: ____ / **Wake:** ____ / **Total:** ____ hrs / **Rested (1-10):** [__]

Wind-down done? [☐] / **Caffeine cut-off kept?** [☐]

CHAPTER 7

End-of-Week Reflection

AVERAGE BEDTIME THIS WEEK: ____ / **AVERAGE wake time:** ____ / **Average hours:** ____ / **Average rested score:** ____

Re-rate sleep quality signals (0-10):

Take more than 30 min to fall asleep
[____] (Day 1: [____])
Wake up multiple times
[____] (Day 1: [____])
Wake up not feeling rested
[____] (Day 1: [____])
3 PM energy crash
[____] (Day 1: [____])
"Wired but tired" before bed
[____] (Day 1: [____])

What changed in 7 days?

Which change made the biggest difference?

- [] Cooler room
- [] Earlier screens-off
- [] Caffeine cut-off
- [] Consistent schedule
- [] Wind-down routine
- [] Bedding change

Recommitment for next week:

CHAPTER 8

Try this for 7 days

IF YOU DO NOTHING ELSE FROM THIS WORKBOOK, try this:

Phone in another room. Bed by 10:30 PM. Wake at the same time daily, including weekends. For one week.

That's the experiment.

Most people who actually do this for 7 days are shocked at the difference by day 5. The most reliable sleep improvement intervention I know.

Bring this workbook to your next session.
