Contents

1. How to use this workbook

Part I: Part 1 — Where You Are Today

Part II: Part 2 — Reflection Prompts

Part III: Part 3 — 7-Day Desk-Posture Tracker

Part IV: Part 4 — End-of-Week Reflection

2. Try this for 7 days

Introduction

A PRINTABLE COMPANION TO THE MONTH 6
module. Fill it in as you go.

CHAPTER 1

How to use this workbook

YOU DON'T HAVE TO USE IT PERFECTLY. YOU don't have to do it every day. You don't have to "complete" it.

What you do have to do: actually look at your body and write down what you notice. Most of the people I work with don't know what their body is telling them because they've stopped listening. This workbook is a structured way to start listening again.

Print it out. Keep it on your desk. Fill it in over the next 7 days. Bring it to your next session.

PART I

Part 1 — Where You Are Today

Before you start the practice, take 5 minutes to honestly assess where you're at. No grading. Just data.

PART II

Part 2 — Reflection Prompts

Answer with whatever comes to mind
first. There are no wrong answers.

PART III

Part 3 — 7-Day Desk-Posture Tracker

For the next week, check in with yourself
three times each workday. Mark where
your body is right now.

PART IV

Part 4 — End-of-Week Reflection

After your 7 days, take 10 minutes to look back at what you wrote.

CHAPTER 2

Try this for 7 days

IF YOU DO NOTHING ELSE FROM THIS WORKBOOK, try this:

Doorframe stretch. Morning. 3 sets of 30 seconds. Every day for one week.

That's it. That's the assignment. Don't over-engineer it. Don't make it a whole routine. Just stand in your doorframe in the morning before you start your day, lean through, breathe, and let your chest open.

Most clients report visible difference in how their body feels by day 4-5. If you don't feel anything different after a full week, message me and we'll figure out what's going on.

Bring this workbook to your next session. I want to see what you noticed.
