Contents

1. How to use this workbook
2. Where You Are Today — End-of-Summer Body Inventory
3. Reflection Prompts
4. Your Fall Recovery Plan
5. 7-Day Recovery Tracker
6. End-of-Week Reflection
7. Try this for 7 days

Introduction

A PRINTABLE COMPANION TO THE MONTH 10 module. Plan your recovery the way you planned your work.

CHAPTER 1

How to use this workbook

PRINT IT. PUT IT ON YOUR FRIDGE OR YOUR BED-room wall — somewhere you'll see it every day for the next 6 weeks.

Fall recovery isn't a meditation exercise. It's planning. Just like you'd plan a season's work. This workbook helps you turn "I should rest more" into specific, trackable, daily commitments.

Bring it to your next session.

CHAPTER 2

Where You Are Today — End-of-Summer Body Inventory

TAKE 10 MINUTES. BE HONEST. THIS IS THE
baseline you'll measure against in November.

**Rate accumulated fatigue signals (0 = none,
10 = severe):**

Persistent soreness that doesn't track to specif-
ic activity [____]

Shorter temper than usu-
al [____]

Sleep getting
worse
[____]

Hard to "wind down" at
night [____]

Waking up
sore
[____]

Small injuries from non-injury activit-
ies [____]

Feeling tired all
day [____]

Lower motivation than usu-
al [____]

Rate physical soreness by area (0-10):

Low back	[_____]
Hips	[_____]
Knees	[_____]
Shoulders	[_____]
Neck	[_____]
Hands/forearms	[_____]
Feet	[_____]

This summer I worked hardest at:

Three honest sentences about how my body actually feels right now:

1.

2.

3.

CHAPTER 3

Reflection Prompts

PROMPT 1: WHAT'S ONE THING ON YOUR FALL to-do list that you've been pushing through? What would happen if you dropped it for the next 4-6 weeks?

Prompt 2: When was the last time you slept 8 hours and woke up actually rested? Like, you remember waking up and feeling restored — not just less tired?

Prompt 3: What does “I earned the recovery” actually mean to you? What did this summer cost you, and what would it look like to get it back?

CHAPTER 4

Your Fall Recovery Plan

THIS IS THE CONTRACT YOU'RE MAKING WITH yourself for the next 6 weeks. Be specific.

My fall recovery period runs from: _ to _

My daily 15-minute stretch happens at: ____
(time)

Where I'll do it: _____

My bedtime target: ____ (within a 30-minute window)

The one task I'm dropping or scaling back:

Why this matters (write it for your future self):

CHAPTER 5

7-Day Recovery Tracker

FOR THE FIRST WEEK OF YOUR RECOVERY PERIOD, track these basics daily. Most people see a difference within 7 days when they actually do this.

Check pattern (use for each day)

- Hours of sleep last night
 - Did I do my 15-minute stretch today? (Y/N)
 - Energy at end of day (1-10)
 - Body soreness right now (1-10)
 - One word for how I feel
-

Day 1 — Date: ____

Sleep: [] hrs / **Stretch done?** [] / **Energy:** [] / **Soreness:** [] / **One word:** ____

Day 2 — Date: _____

Sleep: [] hrs / **Stretch done?** [] / **Energy:** [] / **Soreness:** [] / **One word:** _____

Day 3 — Date: _____

Sleep: [] hrs / **Stretch done?** [] / **Energy:** [] / **Soreness:** [] / **One word:** _____

Day 4 — Date: _____

Sleep: [] hrs / **Stretch done?** [] / **Energy:** [] / **Soreness:** [] / **One word:** _____

Day 5 — Date: _____

Sleep: [] hrs / **Stretch done?** [] / **Energy:** [] / **Soreness:** [] / **One word:** _____

Day 6 — Date: _____

Sleep: [] hrs / **Stretch done?** [] / **Energy:** [] / **Soreness:** [] / **One word:** _____

Day 7 — Date: _____

Sleep: [] hrs / **Stretch done?** [] / **Energy:** [] / **Soreness:** [] / **One word:** _____

CHAPTER 6

End-of-Week Reflection

AFTER YOUR 7 DAYS, LOOK BACK.

Re-rate fatigue signals (0-10):

Persistent soreness	[____]	(Day 1:
[____])		
Shorter temper	[____]	(Day 1:
[____])		
Sleep quality	[____]	(Day 1:
[____])		
Waking up sore	[____]	(Day 1:
[____])		
Feeling tired all day	[____]	(Day 1:
[____])		

What changed in 7 days?

Did I keep the bedtime commitment? [Yes /
Mostly / No]

Did I keep the 15-min stretch? [Yes / Mostly / No]

Did I actually drop the task I said I'd drop?
[Yes / Mostly / No]

Recommitment for next week:

CHAPTER 7

Try this for 7 days

IF YOU DO NOTHING ELSE FROM THIS WORKBOOK, try this:

Bed half an hour earlier. Every night. For one week.

Just that one thing. Don't add stretches yet. Don't drop tasks yet. Just sleep more.

Most people are running an hour of sleep debt minimum after a hard summer. Paying that down is the leverage point. Once the sleep starts restoring you, the other commitments get easier to make and keep.

Bring this workbook to your next session. We'll go over what changed and where to push next.
